Introduction

• At 70, the United Nations (UN) is the symbol and core of global governance with wider array of concerns in the responsibility to protect

✓ To transform the UN from Multilateralism 1.0 to 2.0 via the Bakarean World view

✓ The transformation of the International System into the built Intercontinental System.

By Article 4/chapter8
• By amending article IV and Chapter VIII of the UN Charter, the Open World Order of arrangement is unleashed on the United Nations System

• Allow voting rights, sovereignty and hegemony for Regional Organizations

Two Research Questions
Two fundamental research questions are

☑ In what ways does the pursuit of equality among people, nations and civilizations guarantee security and justice in global governance?

☑ What type of governmental system can better protect mankind and rapidly respond to disasters at global, transnational and regional level?
• The Bakarean World view

✓ Civilization as a complex webbed form of human diversity.

✓ The entity civilization as a common value measurement that is global, desired, broad, and borderless, or distributed

✓ The networking of different civilizations consist of both global identities and exchangeable values

The Tetrad
The Tetrad on Digital (Web 2.0) Media

✓ What does the medium extend?
✓ What does it make obsolete?
✓ What has the medium retrieved?
✓ What does the technology reverse into if it is over-extended?
